

# CHARGE ME

Poo Bear

Chargin' up when I plug in  
Chargin' up when I plug in  
Drainin' your energy  
Drippin' all over me  
Chargin' up when I plug in  
Don't hold back when you feel it comin'  
Love that electricity  
Love it when you're chargin' me

Baby, woah, woah, woah, woah, charge me  
Baby, woah, woah, woah, woah, charge me

When my battery gets low, you're my surge  
I'll be right here when your body gets that urge  
Keep me grounded, yeah, your love is my earth  
All of your juices give me power reserve

Like a circuit in the wall, you're my source  
Source of everything I'm missing from before  
Before I understood, I didn't know the value  
Now the value figured out I needed more

Chargin' up when I plug in  
Chargin' up when I plug in  
Drainin' your energy  
Drippin' all over me  
Chargin' up when I plug in  
Don't hold back when you feel it comin'  
Love that electricity  
Love it when you're chargin' me

Baby, woah, woah, woah, woah, charge me  
Baby, woah, woah, woah, woah, charge me

Ooh, you got enough energy in you to light up Times Square  
Ooh, connect up all of this while you're with me right here  
Ooh, you're insulated like a circuit  
Let me plug in, show me how you work it  
Love the gridlock, keep that current right here

Like a circuit in the wall, you're my source  
Source of everything I'm missing from before  
Before I understood, I didn't know the value  
Now the value figured out I needed more  
Always needed more

Chargin' up when I plug in (Yeah)  
Chargin' up when I plug in (I plug in)  
Drainin' your energy (Ooh)  
Drippin' all over me (I'm drippin')  
Chargin' up when I plug in (Yeah)  
Don't hold back when you feel it comin' (Don't hold it)  
Love that electricity (Ooh, I receive it)  
Love it when you're chargin' me (Don't like your energy)

Baby, woah, woah, woah, woah, charge me (When I, when I, when I come to plug in)

Woah, woah, woah, woah, charge me (I ain't tryna run out of your lovin')  
Woah, woah, woah, woah, charge me (I can be your all or nothing)  
Woah, woah, woah, woah, charge me (I ain't tryna run out of your lovin')
