

## Distant Shore

Poo Bear

From across the vast and open sea  
Was it your sole mission to enchant me?  
From across the ocean's wide expanse  
You've drawn me into your mystical trance

Distant shore ooh  
Distant shore ooh  
It's like the closer I get the further I am  
From your distant shore

Distant shore  
From your distant shore

Your melodic voice carried by the wind  
Your magical essence, the waves did bring in  
Your exotic eyes, piercing through my heart  
Your soft, red lips, I'd dreamt how they'd part

From across the vast and open sea  
Was it your sole mission to enchant me?  
From across the ocean's wide expanse  
You've drawn me into your mystical trance

Distant shore  
From your distant shore

Distant shore ooh  
Distant shore ooh  
It's like the closer I get the further I am  
From your distant shore

It's like the closer I get the further I am

Distant shore ooh  
Distant shore ooh  
It's like the closer I get the further I am  
From your distant shore

Distant shore  
Your distant shore
