

EDGE OFF

Poo Bear

I can knock the edge off
Let me knock the edge off for you on sight
I can leave your body well off
Let me leave your body well off through the daylight
Turn you up
Won't let you down
In a bad mood turn it right around
If you let me knock the edge off
I can knock the edge off for you right now

Picking up on the stress in your voice now
Let's change the conversation
Looking at the position of your poise now
There's no room for evasion
I'm sensing frustration
Choose me for relief
There's no better equation
Don't know the vibrations
We plan to achieve (oh yea)

Look at you look at me
Perfectly aligned
Look at our energy perfectly designed
Ain't nothing stopping us
Like we're unconfined
Check out my blueprint
Perfectly outlined

I can knock the edge off
Let me knock the edge off for you on sight
I can leave your body well off
Let me leave your body well off through the daylight
Turn you up
Won't let you down
In a bad mood turn it right around
If you let me knock the edge off
I can knock the edge off for you right now

Can you hear your intuition speaking
Loud and clear
Let me be your addiction that you can't compare
I'll be your magician
Make that urge disappear
Yearning for ambition baby
I'm your volunteer

Look at you look at me
Perfectly aligned
Look at our energy perfectly designed
Ain't nothing stopping us
Like we're unconfined
Check out my blueprint
Perfectly outlined
