

HEADS UP

Poo Bear

Heads up when you put it right there, put it in the air, turn around
and look back at me oh
Baby you the winner, winner got 'em all bitter
Heads up when you do that right there, you ain't playin' fair, make me
wanna put you on a pedestal
Baby you the winner, winner got 'em all bitter

Impressed how you keep me standin' up, all that ass is makin' it impossible
to sleep
No other choice but put my hands up, got me clearin' my throat yea it
's hard for me to breathe
You put the best expression on my face, when I kiss that place, you turn
into an animal on me, that monkey grip's my favorite space, got me like

Heads up when you put it right there, put it in the air, turn around
and look back at me oh
Baby you the winner, winner got 'em all bitter
Heads up when you do that right there, you ain't playin' fair, make me
wanna put you on a pedestal
Baby you the winner, winner got 'em all bitter

Oh, whoa, I don't need no stimulants, you keep my attention like
Oh, whoa, you don't hesitate it's on site

That sticky icky, just like honey honey, that itty bitty, just like silly
putty, oh, can't help but get lost in it,
Passionate and you always puttin' that sauce in it, never holdin' back
always puttin' your all in it, wake up sore tomorrow morning baby like
you did it, you know you did it

Heads up when you put it right there, put it in the air, turn around
and look back at me oh
Baby you the winner, winner got 'em all bitter
Heads up when you do that right there, you ain't playin' fair, make me
wanna put you on a pedestal
Baby you the winner, winner got 'em all bitter

Oh, whoa, I don't need no stimulants, you keep my attention like
Oh, whoa, you don't hesitate it's on site, like heads up

It takes everything to hold it back, I'll be honest
I'll be comin' back like boomerang that's a promise
Heavy like an Ambien, you leave me unconscious
Bless me with them pillow lips, baby they the softest

No they won't let me pull away
Wouldn't wanna pull out anyway
Got me like a heads up display
I won't let a drop of that go to waste

Heads up when you put it right there, put it in the air, turn around

and look back at me oh

Baby you the winner, winner got 'em all bitter
