

Heavy High

Poo Bear

Wanna look around in the crowd
And see everyone with a smile now
Wanna see you give your neighbor a hug
'Cause you never know what they're feeling about

Wanna see you hydrated
Need you drinking H-Factor
Let me see you put your hands up
And sing along with me

No more lows
Tell 'em bye
Heavy high
Heavy high
Lift my soul
Get me by
Heavy high
Heavy high

Wanna smell that Wonderbrett in the air
Wanna see everybody with healthcare
Show the person in front of you some love
Feels good to know somebody cares

Wanna see you hydrated (Hydrated)
Need you drinking H-Factor (Tart Cherry)
Let me see you put your hands up (Right now)
And sing along with me (Aye)

No more lows
Tell 'em bye
Heavy high
Heavy high
Lift my soul
Get me by
Heavy high
Heavy high

Turn your light on your phone, let me see it
One time
Turn it around take a picture
One time
Don't follow me just follow the light, sing along

No more lows (Oh no)
Tell 'em bye (Tell 'em goodbye)
Heavy high (Heavy high)
Heavy high (Oh, heavy high)
Lift my soul (Soul)
Get me by (Get me by)
Heavy high (Yes sir)
Heavy high (Heavy high)
