Shade

Poo Bear

Have you ever met me before?
Do you feel like you know me a long time?
Did I catch you when I fell through the door?
Was it lust at first sight? A feeling we don't like

Once I shoot across the sky, do you wish upon it?
Am I a dream coming to life? Hold me closer, more than I felt
Any kind of way, no matter what day
Ooh, the light's shining right on my face

Would you be my shade?
Just step across the line, it's way too bright
Would you be my shade? Oh, oh
Please step across the line, it's far too bright
Would you be my shade?

Oh, oh
Shade
Oh, oh
Shade

Have I ever met you before? Ooh
Feel like I've known you all along
Caught a smile when I walked through the door
Was it lust at first sight? A moment we both like

Once I shoot across the sky, do you wish upon it?
Am I a dream coming to life? Hold me closer, more than I felt
Any kind of way, no matter what day
Ooh, the light's shining right on my face

Would you be my shade?
Would you be?
Just step across the line, it's way too bright
Would you be my shade?
Ooh, tell me would you be, ooh, tell me would you be
Please step across the line, it's far too bright
Would you be my shade?

Oh, oh
Shade
Oh, oh
Shade

Have you ever met me before?
Do you feel like you know me a long time?
Did I catch you when I fell through the door?
Was it lust at first sight? A feeling we don't like, shade
