

## Two Commas

Poo Bear

Looks like you added to my light  
Turned me into a whole new bright  
Tryna wrap the thought around my head  
In the meantime, we've been flyin' across the sky like Delta

Movin' upstream like water  
Full of energy like Tesla  
Blowin' each other's minds, Nirvana  
Feel like a hundred million dollars, two commas

Who would've ever thought that you'd come and make my day?  
Who would've ever thought that you'd change my life that night?  
Is it irrelevant that you'd make me feel that way?  
You won the battle without puttin' up a fight

Won over my heart  
Two beats at a time  
Three nights in a row  
Fireworks, Fourth of July  
You earned all my interest  
Never wonder why  
If I said I'd never do it all again, that'd be a lie

Looks like you added to my light  
Turned me into a whole new bright  
Tryna wrap the thought around my head  
In the meantime, we've been flyin' across the sky like Delta

Movin' upstream like water  
Full of energy like Tesla  
Blowin' each other's minds, Nirvana  
Feel like a hundred million dollars, two commas

Ooh, yeah  
Two commas  
We're like two commas

Our life's a video minus the cameras and drama  
My favorite audio is you sayin' "Go harder"  
Feel like the rodeo, gotta get a grip, better hold on  
In the midst of the moment, better not get thrown off

And I bet your bottom dollar  
That I made more sense than you was thinkin'  
Love is the reason  
And ain't nothin like takin a staycation  
Both of us trippin' over the weekend  
What a feelin'

Looks like you added to my light (added to my light)  
Turned me into a whole new bright (to a whole new bright)  
Tryna wrap the thought around my head (around my head)  
In the meantime (woah), we've been flyin' across the sky like Delta (fly)

Movin' upstream like water (like a water)  
Full of energy like Tesla (Tesla)  
Blowin' each other's minds, Nirvana (Nirvana)

Feel like a hundred million dollars, two commas (woah)

Yeah, yeah, two commas (two commas)

I was playin' checkers all along, you was 'bout that chess  
Never thought a checkmate would make me lay my cape to rest  
Can't believe we had a baby, got another one comin' so fast  
Buildin' a dynasty, ain't worried 'bout nothin' less
