

Wolf Hour

Poo Bear

She slightly whispered in my ear
Doesn't feel like a Friday out here
I poured a couple of whiskeys and coke
And from her a smile I tried to invoke

Before we knew
A couple drinks became a few
And surreptitiously
The hours flew, like they do
4 am was a slippery slope
One more shot
And with her I might elope

We've reached the wolf hour
Threshold
Yeah it's like she got me in a choke hold
'Bout to bite down like an animal
We've reached the wolf hour
Threshold
Either it's a go or a no show
Where we end up's confidential
We've reached the wolf hour

Hey hey hey

Heard the howl in the shivering cold
What a revelation to behold
I knew without a shadow of a doubt
Eventually I'd have to brazen it out

With this little lady
I'll go to heaven and back
And with that last drink we had
There ain't no turning back
4 am was a slippery slope
One more shot
And with her I might elope

We've reached the wolf hour
Threshold
Yeah it's like she got me in a choke hold
'Bout to bite down like an animal
We've reached the wolf hour
Threshold
Either it's a go or a no show
Where we end up's confidential
We've reached the wolf hour

Hey hey hey

And surreptitiously
