

# Yes Please

Poo Bear

Would you like a little more, more? More, oh, oh  
Would you like a little more?

Outside, sitting outside in the silence  
Still I hear you loud and clear  
Already formed an alliance  
Do you need a few more million?  
Why would I not keep writing?  
Recycling the blessings  
Why would I not keep fighting?

Do you wanna go? Hands up like "Yes, please"  
Pack up all the pillows, hands up like "Yes, please"  
They say "Do you wanna live a hundred lives?"  
I say "Damn right, a hundred times a day"  
If you already know, hands up like "Yes, please"

Woah, woah, woah, yes, please

You evolve like a butterfly out of cocoon  
I was born on an earth sign, Mars is my moon  
Do you wanna collab together? Yes, please  
Do you want it all to be better? Yes, please  
If I'm lost and you ask me if I need some help, I'll say "Yes,  
please"  
If I was military and I had any rank, I'd say "At ease"

Would you like a little more, more, more, more, more?  
More, more, oh, ooh  
Would you like a little more, more, more, more?  
Would you like a little more?  
Yes, please (More, more, oh, ooh)

Yeah, I'm on empty  
Oh, fill me up, fill me up, it will never be enough  
Holdin' up my hand, "Yes, please"  
...
