

# Ventura Highway Blues

Poolside

Well, I caught myself thinking  
About you yesterday  
Now the days I'm living backwards  
At times I can't think straight

These days, can't keep my head on straight  
And there's no one left to blame  
No one else to blame  
I guess it's

Ventura Highway  
For miles and miles  
Can't seem to drive you out of my mind

Ventura Highway  
For miles and miles  
Can't seem to drive you out of my mind

I gotta stop myself from dreaming  
'Cause I feel so damn afraid  
When I look into the future  
All's I do is look away

These days can't keep my head on straight  
And there's no one left to blame  
No one else to blame  
I guess it's

Ventura Highway  
For miles and miles  
Can't seem to drive you out of my mind

Ventura Highway  
For miles and miles  
Can't seem to drive you out of my mind
