

# Feed The Machine

## Poor Man's Poison

Here's to the greater good, for all  
Do what you know you should, for all  
(For all)  
We all may die

Something's going on, just look around  
Fear is on the rise, and there's blood all over the ground  
Let's all just blindfold the poor, we must remind them what's in store  
We got 'em now, just break them down a little bit more  
(Ahhhhhhh)

I said hey (hey), you (you), feed the machine  
Bring them all back down to their knees  
No time to waste, remind the slaves  
They ain't gonna make it out alive today  
I said hey (hey), you (you), poison the well  
Watch it all burn, take 'em straight to hell  
He's got the whole (whole), world (world) in his hands  
It was nice to know ya, we've all been damned  
C'mon

Nothing's going on, no need to fear  
We're all in this together, and just to make it all clear  
We want the same thing as you, this will all be over soon  
Now here's a little pill, here's the truth

We're gonna, we're gonna, we're gonna  
We're gonna, we're gonna, we're gonna  
We're all gonna die

Hey, you, feed the machine  
Bring them all back down to their knees  
No time to waste, remind the slaves  
They ain't gonna make it out alive today  
I said hey (hey), you (you), poison the well  
Watch it all burn, take 'em straight to hell  
He's got the whole (whole), world (world) in his hands  
It was nice to know ya, we've all been damned  
C'mon (c'mon, c'mon, c'mon, c'mon, c'mon)  
We've all been damned, c'mon

I said hey (hey), you (you), feed the machine  
Bring them all back down to their knees  
No time to waste, remind the slaves  
They ain't gonna make it out alive today  
I said hey (hey), you (you), poison the well  
Watch it all burn, take 'em straight to hell  
He's got the whole (whole), world (world) in his hands  
It was nice to know ya, we've all been damned  
C'mon (c'mon, c'mon, c'mon, c'mon, c'mon)

We've all been damned  
C'mon (c'mon, c'mon, c'mon, c'mon, c'mon)  
We've all been damned  
C'mon
