

Abuse Me

POORSTACY

Put a blade to my fucking neck
I've had it up to here and I'm sick of it
Spare no one, they're vermin, the tongue of a serpent
Had spoken to me, you're full of shit
Go and enter the decadence
Go stop all the repentance
Infrared vision has blurred my decisions
Of sparing you cowards from violence
I need more of the blood I adore
Puncture the flesh, watch the blood stain the floor
Kill all the rest while I carry the torch
Torture the world, leave it begging for more (More, more)

More till you're dead on the floor
More till you're dead on the floor
More till you're dead on the floor
More, more
More till you're dead on the floor
More till you're dead on the floor
More till you're dead on the floor
More

Use me, confuse me
Abuse me, rip my heart right out
Use me, confuse me
Abuse me, rip my heart right out

Yeah, devil don't sleep, bury me deep
I try to die, but I can't fucking bleed
I've become senseless, blinded by vengeance
Dreaming of having your blood at my feet
No thoughts of mercy blind the desire to reign
I will find purpose in your suffering

They're not the same as us
I'm from the mud, no one gave a fuck
So fuck now you're feeling, we hang from the ceiling
At night when it's silent and dangerous
One by one when you hear the call
Signal the siren and kill them all
Show no mercy to those who have none at all
Take down the throne, watch the hierarchy fall

Use me, confuse me
Abuse me, rip my heart right out
Use me, confuse me
Abuse me, rip my heart right out
Use me, confuse me
Abuse me, rip my heart right out
Use me (Use me), confuse me (Confuse me)
Abuse me, rip my heart right out

Pushing further the concept of murder
In nothing but cold blood
Come, lady vengeance
And bathe me in your loathe
