

Bad Vibes

POORSTACY

Bad vibes, bad times
Good girls fall in love with bad guys
Bad vibes, bad times
Good girls fall in love with bad guys

Not nice, fistfight
Not like the rest, I don't want your advice
Big bite, wrist slice
All the freaks come out at night

Bad vibes, bad times
Good girls fall in love with bad guys
Bad vibes, bad times
Good girls fall in love with bad guys

I'm immortalized
Fuck the government, society, for I
Smoke a sack and we're back with the knife
Switchblade, cocaine, all night
Bad brains that come out of my mind
Drop top through the hills, look at the sky
At the club, spinnin', lookin' at the lights
I'll be somewhere havin' fun when I die

Bad vibes, bad times
Good girls fall in love with bad guys
Bad vibes, bad times
Good girls fall in love with bad guys
Bad vibes, bad times
Good girls fall in love with bad guys
Bad vibes, bad times
Good girls fall in love with bad guys
