

God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this

Fell through my hand and it got to my head  
I wonder what they'll all think when I'm dead  
God I hope you remember  
All the fucked up things you said and did  
I hope to God there is no God  
To punish you all for all your sins  
We'll break the laws and burn the cross  
And kill them all for what they did

God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this

All you filthy children  
No one follows the rules  
The system has failed you  
Follow me!  
Follow me!

God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this  
God forgive me for my sins  
I can't live another day like this  
Burn it down with the matchstick in my hands  
Hands in the air, and I scream like this
