POORSTACY

Fuck society, you don't like me
Party on the street, public enemy

Riot screaming fuck police
5 shots in the back if you fuck with me
Black boots, switchblade don't fuck with me
Never run unless the cops are coming after me
Your girl's cute you should let her come and dance with me
Spiked juice, mix the Hennessy with ecstasy

Fuck society, you don't like me
Party on the street, public enemy
Fuck society, you don't like me
Party on the street, public enemy

Public enemy

Midnight, driving through the street
Vision blurry I can't even see who's next to me
In a hurry, paranoid, tryna make it home
Rebel Yell, Billy Idol on the radio

Fuck society, you don't like me
Party on the street, public enemy
Fuck society, you don't like me
Party on the street, public enemy

Public enemy
