

Pushing Forward

POORSTACY

Don't be afraid anymore
Let's keep on pushing forward
Don't be afraid anymore
Let's keep on pushing forward

If you get knocked down, pick yourself back up
I pop pills when I wanna sober up
She hates me, 'cause I don't give a fuck
I only see her in my dreams, I don't wanna wake up
I, I don't wanna see you hurtin'
I don't wanna see you hurtin'
I, I don't wanna see you hurtin'
I don't wanna see you hurtin'
After all the pain that you put me through
I don't wanna waste my time with you
I miss how it feels when I'm with you
First time that we ran away to the moon

Don't be afraid anymore
Let's keep on pushing forward
Don't be afraid anymore
Let's keep on pushing forward

Don't be afraid anymore
Let's keep on pushing forward
Don't be afraid anymore
Let's keep on pushing forward
