

Broken Record

POP ETC

That's the way it goes, there's no air to breathe
I can't see the sunlight
Take a video while you're watching me
Is it noon or midnight?

Face down lying on an airbag
Every day or night, keep making the same mistake
Hear the symphony in my head
Like a reoccurring dream, I know it's all fake

Just a broken record
Just a broken record

We can walk through walls, we can hear the dust
Settle into the ground
Where the silent crawl further under the bus
Back at the lost and found

Face down lying on an airbag
Every day or night, keep making the same mistake
Hear the symphony in my head
Like a reoccurring dream, I know it's all fake

Just a broken record
Just a broken record

At the bottom of the sea
Baby there in a briefcase
Around my neck I've got the key
Where is my mind these days?

Face down lying on an airbag
Every day or night, keep making the same mistake
Hear the symphony in my head
Like a reoccurring dream, I know it's all fake

Just a broken record
Just a broken record
Just a broken record
Just a broken record
