

Heart Attack

POP ETC

It all went black
I had a heart attack
Just as my life flashed before my eyes
I heard someone scream

Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up

Floating down
I started seeing sounds
All in a dream
I gripped onto reality
Through the ice
Through the floor
In through the out door
Just as my life flashed before my eyes
I heard someone scream

Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up, get up
