

# Live It Up

POP ETC

Girl, I just want you to know  
That I found love long ago  
So if we go jump into bed  
While my song's playing in your head  
We can go and meet up after the show  
But in the morning when the bus rolls up I gotta go  
That's the way it's gotta be

'Cause I just wanna live it up now  
Keep me covered town after town  
I just wanna live it up now  
Keep me covered town after town  
I just wanna live it up, wanna live it up  
I just wanna live it up, wanna live it up

I keep my main chick back at home  
She wants to know why I don't pick up the phone  
But it all works out just as planned  
It turns her on that her boy's in demand  
So if you wanna go and meet up after the show  
I ain't ever disrespect no woman,  
Never call her a whore  
That's the way it oughtta be

'Cause I just wanna live it up now  
Keep me covered town after town  
I just wanna live it up now  
Keep me covered town after town  
I just wanna live it up, wanna live it up  
I just wanna live it up, wanna live it up
