

I came here to party
Don't bring me down
I know that the world is ending, hey
So don't try to pick this apart
I know where I stand
Let me just have one more song
Before I run back
How can you blame me now when
When the floods are rising up for us?

So rock your body quick and get out, get out
Rock your body quick and get out, oh
Rock your body quick and get out, get out
Rock your body quick and get out, oh

Hey, this place is dead
Let's move the spot
Push the people down the block, yeah
And I don't own no SUV
So don't you judge me
When I roll up on this Schwinn
I ain't guzzlin'
I'm doin' my part and
Then I'll party till the sun burns out

So rock your body quick and get out, get out
Rock your body quick and get out, oh
Rock your body quick and get out, get out
Rock your body quick and get out, oh

So rock your body quick and get out, get out
Rock your body quick and get out, oh
Rock your body quick and get out, get out
Rock your body quick and get out, oh

Rock your body quick and get out, get out
Rock your body quick and get out
Rock your body quick and get out, get out
Rock your body quick and get out, oh
