Same Mistake

POP ETC

Heavy
This air is getting heavy
I was never ready to face myself
Gambled
Everything's in shambles
It took me two full years to make it right

Landmine
I'm callling in a lifeline
I wanna do it different this time around
This time around
This time around

All my
Lifetimes
Doomed to make the same mistake
Doubled down
Lost it on a rebound
Always doomed to make the same mistake

Picked fights
Twisted through a gaslight
You're the only one who knows what I mean
Counting down the second hand
Wasted half my life with plans
That never panned out
I'm sinking far down
Into the quick, sand

All my
Lifetimes
Doomed to make the same mistake
Doubled down
Lost it on a rebound
Always doomed to make the same mistake
