

## Same Mistake

POP ETC

Heavy  
This air is getting heavy  
I was never ready to face myself  
Gambled  
Everything's in shambles  
It took me two full years to make it right

Landmine  
I'm calling in a lifeline  
I wanna do it different this time around  
This time around  
This time around

All my  
Lifetimes  
Doomed to make the same mistake  
Doubled down  
Lost it on a rebound  
Always doomed to make the same mistake

Picked fights  
Twisted through a gaslight  
You're the only one who knows what I mean  
Counting down the second hand  
Wasted half my life with plans  
That never panned out  
I'm sinking far down  
Into the quick, sand

All my  
Lifetimes  
Doomed to make the same mistake  
Doubled down  
Lost it on a rebound  
Always doomed to make the same mistake
