

## So Far Away

POP ETC

From the way you talk  
I know you're far away  
Ooh, I can't lie, it's no surprise at all  
Look me in the eye  
Please tell me why  
The worse it gets, the more I want to hold on

And I, can you see alone  
I see that you caved in  
But you're so far away  
And I, never stopped loving you  
I know that it's wasted  
When I'm so far away  
So far away

Oh, oh

Living in the past  
Tryna make it last  
Something's off, details lost and gone

And I, can you see alone  
I see that you caved in  
But you're so far away  
And I, never stopped loving you  
I know that it's wasted  
When I'm so far away  
So far away

So far away  
Oh-oh  
Oh-oh-oh-oh
