

I played it like I hadn't seen you before  
Like my jaw had just hit the floor  
I keep it cool and I got the conversation alive  
I know that what we're after isn't written in the stars but they fall  
My better sense could stop me from wanting your body so hey  
But we can still have a little fun tonight  
Cause you know that I can't say no

You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo

Now I know you're trying to keep things light  
And I can't provide for you in the way that you like  
Our kind of love never made for intellectual sparks  
But you don't have to feel guilty cause we're on the same dance and we fall  
My better sense could stop me from wanting your body so hey  
We could still have a little fun tonight  
Cause you know that I can't say no

You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the taste of lovin'  
That's got me coming back just like a yo-yo

(I know this kind of love don't last forever  
We had a good time for awhile, I had a good time  
We could give it another try  
I know it doesn't work between us  
I'm just tryin' to live it up)

I can't say no to you, your kind of lovin'...

You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the taste of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo  
You got the kind of lovin'  
That's got me coming back just like a yo-yo
