

Daisy Chain

Pop Evil

I know your too hot to handle
But you're the best I ever had
Inside you hope for a scandal
I love good girl gone bad
So tell me do you want to play

So bring your daisy chain
Come on girl on your knees
Bow down like your starting to pray
Come on little girl when your riding me
Everybody knows how your sex is good
So get up and come over
Get up we're not done
Everybody wants to ride

Damn girl you can play the field
You're a pornstar girl and the truth's revealed
So get up if you got something to say
The night is young if you want to stay
Tell me do you want to play

So bring your daisy chain
Come on girl on your knees
Bow down like your starting to pray
Come on little girl when your riding me
Everybody knows how your sex is good
So get up and come over
Get up we're not done
Everybody wants to ride

What you do to me
Isn't knew to you
Do you want to play
Come on get up girl
And give it to me
Do you want to ride the chain

So get up and come over
Get up we're not done
Everybody wants to ride
Everybody wants to ride

So get up and come over
Get up we're not done
Everybody wants to ride
Everybody wants to ride

So bring your daisy chain
Come on girl on your knees
Bow down like your starting to pray
Come on little girl when your riding me
Everybody knows how your sex is good
So get up and come over
Get up we're not done
Everybody wants to ride

So get up and come over

Get up we're not done
Everybody wants to ride

So get up and come over
Get up we're not done
Everybody wants to ride
Everybody wants to ride
