

# Ghost of Muskegon

Pop Evil

Days feeling hollow  
Against my will they run into each other  
And lies that I followed  
Invisible now but the ground tells the story  
This land that I ramble  
Keeps going on and on, on and on  
If I could  
Live forever  
I'd breathe it on and on, on and on

I'm just a ghost  
It's starting to show  
I've been on the wrong side searching for love  
Could I be wrong about everything?  
I've made more waves than the ocean  
But nobody knows  
Nobody knows

Lost, still I'm searching  
Seek for the truth that will keep me together  
I drift, through the ether  
Never gone, gone  
Never gone, gone  
If I could  
Live forever  
I'd breathe on and on, on and on

I'm just a ghost  
It's starting to show  
I've been on the wrong side searching for love  
Could I be wrong about everything?  
I've made more waves than the ocean  
But nobody knows  
Nobody knows

You pick me up, bring me back down  
Just let me breath, before I drown  
I'm in too deep over my head  
Am I alive or am I dead

I'm just a ghost  
Nobody knows  
I made more waves than the ocean

I'm just a ghost  
It's starting to show  
I've been on the wrong side searching for love  
Could I be wrong about everything?  
I've made more waves than the ocean  
But nobody knows  
Nobody knows  
I've made more waves than the ocean  
But nobody knows  
Nobody knows  
I've made more waves than the ocean  
But nobody knows  
Nobody knows
