

Silence & Scars

Pop Evil

Sometimes we look, for the now
Sometimes inside, we live with our regrets
In time we learn our lessons
But this time I know I am helpless

I know I've been wrong
I don't have all the answers
I'm stuck in this hell
Somewhere in between
What I want and what I need
I don't have a good reason
Cause now that you're gone
Only silence and scars remain

Rewind to 1999,
We were just kids still caught up in a lifetime
Everything was easy then
as it turned out in the end
We're better off as friends

I know I've been wrong;
I don't have all the answers
I'm stuck in this hell
Somewhere in between
What I want and what I need
I don't have a good reason
Now that you're gone
Only silence and scars remain

I still feel like I threw it all away
In the end I never met you halfway
Only the silence around me and the scars remain

Sometimes we learn our lessons
But sometimes we're just left helpless

I know I've been wrong
I don't have all the answers
I'm stuck in this hell
Somewhere in between
What I want and what I need
I don't have a good reason
Cause now that you're gone
Only silence and scars remain

Now that you're gone
Only silence and scars remain
Now that you're gone
Only silence and scars remain
