

Wishful Thinking

Pop Evil

You turn your back, the blow was low
We stood behind the noose I tied the rope
Turn away when it falls off track
Make believe so I don't react, you know
Ignore the signs and let it all go
And then

One day I realized you'll never change, it will never sink in
Too late to change your mind, what a shame all the Wishful Thinking
Now I know there's nothing waiting
Now I know that nothing's guaranteed
One day you'll realize, no nevermind
It's just Wishful Thinking

I was naive you were yourself, you know
You tried your best to put me through hell
Stab my back and you don't think twice
Bite the hand and you won't survive
I turned my back, the blow was low
And then

One day I realized you'll never change, it will never sink in
Too late to change your mind, what a shame all the Wishful Thinking
Now I know there's nothing waiting
Now I know that nothing's guaranteed
One day you'll realize, no nevermind
It's just Wishful Thinking
It's just Wishful Thinking

Should've known better that you can't be saved
Should've seen it coming now the debts been paid
Should've known better that you can't be saved
I should've seen it coming that you'd dig your own grave
Dig your grave

One day I realized you'll never change, it will never sink in
Too late to change your mind, what a shame all the Wishful Thinking
Now I know there's nothing waiting
Now I know that nothing's guaranteed
One day you'll realize, no nevermind
It's just Wishful Thinking

One day you'll realize, no nevermind
It's just Wishful Thinking
