

# Calling Me Down

Pop Levi

Oh when my woman  
Come calling me down  
She calling me down  
I don't eel the same  
I don't feel the same  
When my woman  
Done calling me down  
I just don't feel the same anymore

Could it be over  
Could it be over soon?  
I'm keeping it all  
I'm keeping it all inside my womb

She got to be right  
She got to be right  
She got to be right, honey  
And she keep calling me  
Calling me down

So when I'm roamin'  
I'm roamin' round town  
Just combing downtown  
I conceal my name  
I conceal my name  
When I'm roamin'  
I'm roamin' round town  
Just soaking downtown  
'Til I don't know my name anymore

She crawling right over me  
She crawling right over me  
And she calling down like a thunder  
She crawling right over me  
She crawling right over me

And when my woman  
Done crawling me down  
She falling me down  
And I just don't know her game anymore
