

Inside You

Pop Will Eat Itself

Love's just the word for boy meets girl when you know it's fear
we've found
You're scared of me and I'm scared of you - we'll never get by
without it
The things I do that don't include you, sometimes it grinds you
down
I know you'd do anything just to have me around

I never say I love you, I don't think you expect me to
But there's no mistaking that special feeling when I'm inside y
ou
When I'm inside you

The fear goes round till it goes bust, it's all so sad about us

The things you've learnt with your fingers burnt
Is nothing changes nothing much

I never say I love you, I don't think you expect me to
But there's no mistaking that special feeling when I'm inside y
ou
When I'm inside you

The things I do don't help me
What can I do - I know it's crazy
But these things are always on my mind when I'm inside you
When I'm inside you
When I'm inside you
When I'm inside you
When I'm inside you
When I'm inside you (oh yeah)
When I'm inside you (oh yeah)
When I'm inside you (oh yeah)
When I'm inside you (oh yeah)
When I'm inside you
