

# Comfortable

Popcaan

(Let me beat it up like Jaegen)

You just wanna love me  
You just wanna touch me  
You make me comfortable  
Girl no one's perfect love me  
You just wanna love me  
You just wanna touch me  
You make me comfortable  
Never leave me lonely (Ayy)

My girl you're nuh easy (Yeah)  
Pop it like wheelie (Yeah)  
Pum pum too greasy (Yeah)  
Wrist dancin' like Breezy (Yeah)  
We drunk and in love, never lonely  
We drunk in this club, dancin' off beat  
I've been on road, grindin' all week  
When I get home, you're grindin' on me  
Down on ten toes, gotta stay free  
Got too many niggas dependin' on me  
Got too many mouths out here that I feed  
And all your love is all that I need, yeah, yeah  
So cold, Lord knows  
So bad, still see her with my eyes closed  
And wherever I go she gon' follow  
My heart, my soul 'cause

You just wanna love me  
You just wanna touch me  
You make me comfortable  
Girl no one's perfect love me  
You just wanna love me  
You just wanna touch me  
You make me comfortable  
Never leave me lonely

Yeah  
What about all the designers that we bought?  
What about the brand new whips and the locks?  
Baby girl I know that I've hurt you enough  
But I promise to change if you stay with the boy  
And I promise to change my ways  
And I promise you ah gon' get to get one, ayy  
Don't give a fuck if she whine down waist  
I wanna be with you, oh, oh yeah  
You drive me crazy, never know  
'Met her when I was seventeen  
That time when we never grow (Time where we never grow)  
Let nothing come in between  
Me and my lover, or Imma have to pull my gun up  
And for you me a go  
Shoot past one round, for your love girl  
I will fight any man cause

You just wanna love me  
You just wanna touch me

You make me comfortable  
Girl no one's perfect love me  
You just wanna love me  
You just wanna touch me  
You make me comfortable  
Never leave me lonely

Never leave me, never leave me  
Never leave me  
Never leave me lonely  
You just wanna, you just wanna  
You just wanna love me  
Touch me  
You just wanna love me  
Touch me  
Never leave me, never leave me lonely
