

# Bubblebath

Poppy

Take a bubblebath!

I'm so sick of what I see  
On my computer and TV  
They're tellin' me who I should be  
But their pretty faces aren't so clean

Do you really want a world that's always fadin'?  
We won't get very far if everyone's complainin'  
About the stupid little things and always wantin' more  
Can we all just take a bubblebath

Every boy and every girl  
Has a chance to change the world  
We can wash away negativity  
A little love is all we need

Do you really want a world that's always fadin'?  
We won't get very far if everyone's complainin'  
About the stupid little things and always wantin' more  
Can we all just take a bubblebath

Hey, hey, hey!  
Hey, hey, hey!

Wash away with milk today  
Wash away with milk today  
Take a bubblebath!  
Wash away with milk today  
Wash away with milk today  
Take a bubblebath!  
Wash away (wash away) with milk today  
Wash away (wash away) with milk today  
Take a bubblebath!  
Wash away (wash away) with milk today  
Wash away (wash away) with milk today  
Take a bubblebath!

Do you really want a world that's always fadin'?  
We won't get very far if everyone's complainin'  
About the stupid little things and always wantin' more  
Can we all just take a bubblebath

Hey, hey, hey!  
Hey, hey, hey, hey!
