

# Computer Boy

Poppy

Boy, boy, boy, boy

I'm in love with my favorite toy  
Can't go a day without computer boy  
I smile at him while I turn him on  
I'm so happy until computer's gone

I don't care, and I won't change myself  
I don't want anybody else

I fell in love with the man of the future  
I've got a thing for my laptop computer  
I'm so in love with the man of the future  
The only one who brings me joy is my computer boy  
(Boy, boy, boy, boy, boy)

I'm trying not to get attached to you (attached to you)  
But no one else gets me like you do (like you do)  
When you glow on my face you make me come alive  
I want your floppy disk to be my hard drive

I don't care, and I won't change myself  
I don't want anybody else

I fell in love with the man of the future  
I've got a thing for my laptop computer  
I'm so in love with the man of the future  
The only one who brings me joy is my computer boy

Don't ever leave me or go to sleep without me  
Please stay by my side forever and never talk to anyone else  
My dearest  
(Boy, boy, boy, boy, boy)  
Computer boy  
(Boy, boy, boy, boy, boy)

I don't care, and I won't change myself  
I don't want anybody else  
No, I don't plan to change myself  
To be with anybody...  
(Computer boy!)

I fell in love with the man of the future  
I've got a thing for my laptop computer  
I'm so in love with the man of the future  
The only one who brings me joy is my computer  
I fell in love with the man of the future  
I've got a thing for my laptop computer  
I'm so in love with the man of the future  
The only one who brings me joy is my computer

The only one who brings me joy is my computer  
The only one who brings me joy is my computer boy
