

# Everything I Know Is Wrong

Poppy

Maybe I'm to blame for everything that's changed  
I'll stay, the same, maybe when I'm famous  
I'll be so removed, yeah I'll be just like you  
That's true, I'll chose a different point of view

So today I will take the long way home  
Till everything I know is gone  
Everybody sing along  
Sing 'Everything I Know Is Wrong'  
I will take the long way home  
Till everything I know is gone  
Everybody sing along  
Sing 'Everything I Know Is Wrong'

Everything's okay, 'cause we're all meant to change  
I know, it's strange, nothing is forever  
Close your eyes and pray, do this every day  
Just say my name, we can live forever

Today I will take the long way home  
Till everything I know is gone  
Everybody sing along  
Sing 'Everything I Know Is Wrong'  
I will take the long way home  
Till everything I know is gone  
Everybody sing along  
Sing 'Everything I Know Is Wrong'
