Poppy

I figured you out
And I know what you're about
You're sticking it out
So your dick's in her mouth

You wanna go out and fuck the world
Yeah fuck the world
But it'll fuck you back

You don't know what you need
You think they fall at your feet
Every time that you speak
Are you competing with me

You wanna go out and fuck the girls
Yeah fuck the girls
But they'll fuck you back

Someone with nothing to lose
Can take everything that you have
There's nothing that they wouldn't do
Cause nothing is holding them back

I figured you out
And I know what you're about
You're sticking it out
So your dick's in her mouth

You wanna go out and fuck the world
Yeah fuck the world
But it'll fuck you back

You don't know what you need
You think they fall at your feet
Every time that you speak
Are you competing with me

You wanna go out and fuck the girls
Yeah fuck the girls
But they'll fuck you back

[illegible]

Fuck you back
