

If U Like

Poppy

They feed us through our eyes
Too scared to speak our minds
So speak up
We try to rendezvous
But they don't want us to
Why can't they see the light like I do?

We are so young
But we're not dumb
We're not so different
We're just a little bit sick of it
We're done feeling numb

If I seem a little blunt
It's 'cause I'm a little girl, and I'm bored
I'm waiting for the day I hear somebody say
"Here's one you can't afford, hop on board!"

We are so young
But we're not dumb
We're not so different
We're just a little bit sick of it
We're done feeling numb
We are so young
But we're not dumb
We're not so different
We're just a little bit sick of it
We're done feeling numb

We are so young
But we're not dumb
We're not so different
We're just a little bit sick of it
We're done feeling numb
