Poppy

You'd cave under pressure  
Wade in the dust  
Are you the aggressor?  
Why do you fight to be right?

Can't sleep with eyes closed, they've come for blood  
Cut them, they're multiplying, they walk among us  
When mercy's weakness, if God will judge  
Just make it painless, keep looking up

'Cause I'm pleading my own defense  
I made the same mistakes again  
You hang it over my head  
Can you tell me, what do you want with me?  
When nothing's enough for you

The signs read as fiction  
The crooks took a side  
Do you bear witness?  
Or will you hide from the light?

'Cause I'm pleading my own defense  
I made the same mistakes again  
You hang it over my head  
Can you tell me, what do you want with me?  
When nothing's enough for you

I've seen the end over in my head  
Testing me with insanity's grip  
'Cause the truth  
Will bury you  
What do you want?  
When nothing's enough

'Cause I'm pleading my own defense  
I made the same mistakes again  
You hang it over my head  
Can you tell me, what do you want with me?  
When nothing's enough for you  
When nothing's enough for you
