

## push go

Poppy

Every boy and every girl  
Thinks they wanna change the world  
They don't know exactly how to start  
I've been everywhere and known  
That what they never tell you about  
Is you need to keep protecting your own heart

In the dawn of the darkest of times  
Hear their cries out from far away  
It's the battle of one versus us  
Keeps us lying awake

'Cause you know it's  
One step, push go and start to believe  
Don't make it complicated  
Paranoia is guaranteed  
If you're free falling, hit the bottom  
Take it from me  
There's a glow on the sidewalk, you're walking on

One step, push go and start to believe  
Don't make it complicated  
Paranoia is guaranteed  
If you're free falling, hit the bottom  
Take it from me  
Push go  
No hesitating

Every girl and every boy  
Is trying to fill a deeper void  
They don't know exactly where to start  
I've been everywhere and now  
I won't shed a single doubt  
You need keep protecting your own heart

In the dawn of the darkest of times  
Hear their cries out from far away  
It's the battle of one versus us  
Keeps us lying awake

'Cause you know it's

They're feigning as and they all conspire  
Desire only takes them higher  
I'm telling them  
Paint the world in neo color  
Profess the message to your lover  
'Cause you know it's

One step, push go and start to believe  
Don't make it complicated  
Paranoia is guaranteed  
So if you're free falling, hit the bottom  
Take it from me  
Push go  
No hesitating

Chaos keeps me warm  
It goes on and on  
Make it who you are  
You can push go  
No hesitating
