

# Pyromaniac

Poppy

Hold your hands over the fire  
You entertain these thoughts in your skull  
Running steady on a wire  
Don't get too close  
So what will transpire? My self control  
Your eyes shift to shatter, I told you so

Last time wasn't the last, pyromaniac  
Watching you strike a match on everything we have  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac

Hold your hands over your eyes  
You can't see the damage you've done  
You sharply pull out the fire  
Getting close to no one (Ah-ah-ah)  
So what's your intention, is it all just for kicks?  
There's no use in saving you  
You're built to destroy

Last time wasn't the last, pyromaniac  
Watching you strike a match on everything we have  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac  
Last time wasn't the last, pyromaniac  
Watching you strike a match on everything we have  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac

Give it a rest, give it a rest  
Pyromaniac, pyromaniac  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac

Last time wasn't the last, pyromaniac  
Watching you strike a match on everything we have  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac  
Last time wasn't the last, pyromaniac  
Watching you strike a match on everything we have  
Give it a rest, give it a rest  
Pyromaniac, pyromaniac
