

Bread Believer

Porches.

When you come back down
A little silence
Put you back on the mound
A little violence

You're such a

Bread believer, bread believer
Bread believer, bread
And don't you think it's time to see her
Time to see her, time to see her, time to
Yeah, I'm such a bread believer
Bread believer, new religion, bread
And don't you think it's time to see her
Time to see her, time to see her, time to see her

Then you come back down
It gets so quiet
Jackie back on the ground
A little violence

I saw it coming, I'm a

Bread believer, bread believer
Bread believer, bread
And don't you think it's time to see her
Time to see her, time to see her, time to
Yeah, I'm such a bread believer
Bread believer, new religion, bread
And don't you think it's time to see her
Time to see her, time to see her, time to see her, it's a

Bread believer
Bread believer
