

# Get Your Wish

Porter Robinson

I'll make it right again  
"But it's no use," you said  
As my hunger grows and grows  
I have to write the meaning of my life  
Or else everything's in vain

When the glory tries to tempt you  
It may seem like what you need  
But if glory makes you happy  
Why are you so broken up?

So tell me how it felt when you walked on water?  
Did you get your wish?  
Floating to the surface  
Quicker than you sank  
Idol, idol  
So tell me how it felt when you walked on water?  
Did you get your wish?  
Floating to the surface  
Quicker than you sank  
Idol, idol

Don't say you lose just yet  
Get up and move ahead  
And not only for yourself  
'Cause that's your role:  
The work that stirred your soul  
You can make for someone else

One day you choke, your urges overflow  
And obsession wears you down  
But don't you waste the suffering you've faced  
It will serve you in due time

So tell me how it felt when you walked on water?  
Did you get your wish?  
Floating to the surface  
Quicker than you sank  
Idol, idol  
So tell me how it felt when you walked on water  
Did you get your wish?  
Floating to the surface  
Quicker than you sank  
Idol, idol

So tell me...
