

# Always, Always

Porter Wagoner

Darling, will you love me forever  
Always, always  
Will you keeps these vows we mad together  
Always, always  
Will your love be as strong if my dreams will go wrong  
Always, always

Darling, will you stay with me forever  
Always, always  
Will your love remain through stormy weather  
Always, always  
To walk the roads that might get rough  
Always, always

In return for your love I'll be true as stars above  
Always, always  
And the love that I feel will forever be so real  
Always, always
