

# Answer Is Love

Porter Wagoner

Things seem to worsen as time goes along we stand bewildered and ask what is wrong  
We say it's a pity but that's not enough we've asked a question  
and the answer is love

The answer is love to all of the problems we face  
We can't solve our problems still we rid out hearts of hate  
We can't fight our brothers and get blessings from above  
We have asked a question and the answer is love

People are hungry with no clothes to wear how can they survive  
if nobody cares  
Still we've refused them when they turn to us that's not the answer the answer is love

The answer is love to all of the problems we face  
We can't solve our problems still we rid out hearts of hate  
We can't fight our brothers and get blessings from above  
We have asked a question and the answer is love  
We have asked a question and the answer is love
