

Closer by the Hour

Porter Wagoner

You're the sweetest one I know
And I just can't let you go
I just dream of holding you inside my arms

I go home each night to stay
But I just can't stay away
And we get closer, closer by the hour

We get closer by the hour
Though we tried with all our power
To stay away from each other's arms
We get closer by the hour
Like the bee goes to the flower
Closer, closer by the hour

We come closer with each kiss
And I feel your lips insist
That I do your will and love you more and more

Although we know it's wrong
We can't stay where we belong
And We get closer, closer by the hour

We get closer by the hour
Though we tried with all our power
To stay away from each other's arms
We get closer by the hour
Like the bee goes to the flower
Closer, closer by the hour
