

# I'll Go Down Swinging

Porter Wagoner

The one I love don't want me hanging round  
All she does is put me on and put me down  
Tonight she's with a stranger at a party in her home  
And I'm here at a tavern gettin' stoned

'Cause if I gotta go I'll go down swinging  
Where there's lights and laughter booze and blonds and a lot of  
sad sad singing  
I'll sober up tomorrow and cry all day I know  
At least I'll go down swinging what a swinging way to go

I dance with all the girls and buy the wine  
Play the jukebox till I'm down to my last dime  
She thinks she made a fool of me by loving someone else  
She should see me make a fool out of myself

'Cause if I gotta go I'll go down swinging  
Where there's lights and laughter booze and blonds and a lot of  
sad sad singing  
I'll sober up tomorrow and cry all day I know  
At least I'll go down swinging what a swinging way to go
