

Let's Squiggle

Porter Wagoner

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle

Standard brands of pitchin' woo
Are out of style for me and you
For now we know what real gone love can do
So let's take time
While loves light shines
For it's just meant for two

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle

I learned about the squiggle one day on the farm
A city-fied gal took me by the arm
She said follow the leader and you'll understand
You don't need a blueprint to learn this plan

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle

Hugs and kisses on the sly
For old time folks might satisfy
But when it comes to young uns in the know
At night or noon
Come time to spoon
A squiggle's in the show

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle

The squiggle was invented a long time ago
A guy and a gal thought the dance was too slow
So they put their hips together and the fun began
Right experimentation they found a plan

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle

It's half a squeeze and half a wiggle
Now you know how so baby let's squiggle
