

Our Love

Porter Wagoner

There's nothing as sure as our love

There's nothing so complete as our love
And nothing as sweet as our love
Just be together, that's all we're thinking of
That no love can replace our love

There's no love as pure as our love
There's no love as sure as our love
And no love is as strong as our love, oh, our love
No love will last as long as our love

There's no love as pure as our love
There's no love as sure as our love
And no love is as strong as our love, oh, our love
No love will last as long as our love

Our love, our love, our love
Our love
