

That's It

Porter Wagoner

I hear bells a ringin' and my heart is singin' a song
The way I'm a feelin' I know it won't be long
So get closer to me, say lip-to-
tip just a little closer that's it
That's it, baby, that's it

The blues start wingin' and the bells start ringin' above
We both know what it means to be in love
It's you for me and me for you, so pitch the woo that's overdue
That's it, baby, that's it

Now when we're dancin' my heart is singin' a song
When you're away I know you're doin' me wrong
So while you're here, let's do it up, right you may be gone tom-
orrow night
Get closer to me, baby, that's it

There'll be no pretendin' when we start makin' love
Every time you're near old Cupid gives a shove
I allow out how's now the time to cuddle up and act so fine
That's it, baby, that's it

There'll be no defyin' and no more cryin' here
Cause my tears start flyin' every time I know you're near
If I should ask you by the way if you'll be mine I hope you'll
say
That's it, baby, that's it
