

Without You

Porter Wagoner

Without you

The days come and go, they mean nothing to me
Nothing means nothing without you
My eyes overflow 'til all I can see
Is a future I can't face without you

Without you, without you, it's not like before
How can I face life without you?
The days are as dark as the nights anymore
And I am so lonely without you
Without you

Too many things to remind me of you
How could I forget about you?
Oh, how can I make it now that I've lost you?
For I am so lost without you

Without you, without you, it's not like before
How can I face life without you?
The days are as dark as the nights anymore
And I am so lonely without you
Without you
