

Up before the dogs
Up before the snowcaps warm up in the sun
Run off is a river flowing
Becoming little swords hanging down
Jenny Generator gonna fix the generator
So the kids can watch their cartoons
Yeah, mom, thank you too
Waiting for the lights to come on, on, on, on

Northern twin
The body counts in
Scouts peeking from the rooftops
'til you see the smoke pop
Vision of a god, I don't wanna see my friends die

Northern twin
The body counts in
Climbing to the top of a pile of rock bush, camping with a range weapon
They were just kids, they were just kids back then
Maybe another lifetime
Feels like a lifetime, it's been

Oh northern twin, northern twin
Steward the land protector
Kicking from within occupation
Burn the witches, shield the children

Say nothing, say nothing, say nothing, say nothing

Under the skin, under the skin
Feeling the temperature rising
Down bad and blurry vision
Flyering for liberation

Smiling through the pain
Laughing through a touch of gray
I'll be sliding on my raincoat
On this honey holiday, it goes

Say nothing, say nothing, say nothing, say nothing
Say nothing, say nothing, say nothing, say nothing

Smiling through the pain
Laughing through a touch of gray
I'll be sliding on my raincoat
On this honey holiday

Smiling through the pain
Laughing through a touch of gray
I'll be sliding on my raincoat
On this honey holiday, it goes

Say nothing, say nothing, say nothing, say nothing
Say nothing, say nothing, say nothing, say nothing
